WELCOME TO BROWN JUG'S WEEK OF WHISKEY

HOW IT WORKS

From Monday through Saturday, Brown Jug will release a selection of hard-to-find, limited edition and distinctive whiskeys at each of its warehouse locations, as well as debut new Brown Jug store pick barrels. These items will be first-come first-serve, but due to their scarcity and high demand selections will be limited, with only one to three bottles available per person on most items.

In addition to the release items, Brown Jug will also feature additional whiskies at reduced pricing each day, allowing you to stock up on your favorites while you score some rare bottles.

There are some whiskeys that are just so rare and in-demand that releasing them as first-come first-serve would lead to long lines, which we want to avoid for the safety of our customers during this health crisis. During the Week of Whiskey, customers will be able to enter for the chance to buy these highly sought-after items, known in the whiskey world as "unicorns".

HOW TO USE THIS GUIDE

This guide will let you know what items are being released on each day so you can plan your Brown Jug trips accordingly throughout the Week of Whiskey. In addition to the items and their cost, you will see information about each selection, learn why it is special and see how many bottles are available at each location.

BROWN JUG BARREL PICKS

Each day through the week, Brown Jug will debut one or more of its "Barrel Picks". Barrel picks are specially selected single barrels of product that are bottled just for Brown Jug. These barrel picks offer a unique expression of some of Alaska's favorite whiskeys as well as some lesser known selections.

Selections and quantities are subject to change.

THE FINE PRINT

MONDAY'S BROWN JUG BARREL PICK RELEASE

BUFFALO TRACE

Kentucky Straight Bourbon Whiskey

We're excited to debut not one, not two, but three barrels of one of Alaska's favorite bourbons. First released in 1999, Buffalo Trace is made from specially selected barrels of whiskey that have a full-bodied, robust character, and is batched at no more than 40 barrels at a time. While there is no age statement on the bottle, distillery insiders say that the average barrel age is 9.5 years. The result is a full-flavored, mature bourbon that for many is the quintessence of what Kentucky Straight Bourbon Whiskey should be.

For our Brown Jug Barrel picks, we selected barrels that we felt stayed true to the character of Buffalo Trace, but with those elements turned up to 11, delivering a richer, full-flavored pour.

Distillery: Buffalo Trace Distillery, Frankfort, KY

Age: NAS **ABV:** 90 Proof

MONDAY'S RELEASES: NEW TO ALASKA

For our first day of releases, we are excited to share with you a selection of whiskey that has never been seen before in Alaska, along with other newcomers that just hit the market this year.

Bourbon enthusiasts will recognize Belle Meade, a brand from the 1800's resurrected in 2008 by descendants of its founder, which has been receiving rave reviews.

Those that keep abreast of bourbon news will also recognize Daviess County, a brand first produced in 1874, now brought back by Lux Row Distillers, which has been making a splash with whiskey releases that get better and better year after year.

Balcones is synonymous with Texas whiskey, earning international acclaim for their single-malt offerings. Like Belle Meade and Daviess County, Balcones makes its Alaskan debut at Brown Jug's Week of Whiskey.

Don't miss out on these great finds, some of which can be only found at Brown Jug.

TUESDAY'S BROWN JUG BARREL PICK RELEASES

FOUR ROSES SINGLE BARREL Kentucky Straight Bourbon Whiskey

Four Roses is known for the sheer variety of their mashbills and yeast strains. While most distilleries stick to one yeast strain, Four Roses uses five. Combined with two different mashbills, the result is 10 possible combinations, with some collectors endeavoring to collect them all. These 10 different combinations are represented by a 4-digit code. This barrel-proof Brown Jug pick is an OESK, using their 20% rye "E" mashbill and yeast "K", which imparts slight baking spice elements.

Distillery: Four Roses Distillery, Lawrenceburg, KY

Age: 11 Years **ABV:** 110.3 Proof

Available: ANC 78, WAS 30, FAI 35

Retail: \$84.99 Limit 2 per person

MAKER'S MARK PRIVATE BARREL SELECT - EQUINOX AND SOLSTICE

The Maker's Mark's store pick process is one of the most interesting to be a part of and can also yield the most interesting results. Starting with mature Maker's Mark 46, Brown Jug carefully chose a selection of oak staves. Those oak staves – each one imparting different characteristics to the whiskey – were then placed in the barrel of Maker's 46 for another 3 months of aging.

With over 1,000 different possible combinations of barrel staves, this finishing process can create a myriad of different flavor profiles.

We couldn't pick just one, so we created two separate finishes – Solstice and Equinox. While the Equinox is rich, smooth and moderately spiced, the Solstice packs on more spice and deep woody notes.

Each bottle is individually signed by one of the Brown Jug staff members that helped make the selection.

Distillery: Maker's Mark Distillery, Loretto, KY

Age: 5+ years

ABV: Cask Strength (Varies, usually 105-114pr)

Available: ANC 114, WAS 30, FAI 36

Retail: \$69.95 Limit 6 Per Person

TUESDAY'S LIMITED RELEASES: JAPANESE WHISKY

While whiskey has been made in Japan since the 1870s, it wasn't until the 1920's, when Masataka Taketsuru brought his knowledge of distilling back from Scotland, that Japanese whisky found its identity. Today, Japanese whisky's connection to Scotch is still apparent, with most prominent producers using malt as a base, and many distilleries offering peated options.

Up until the early 2000's, Japanese whisky was virtually unknown in the United States, and it wasn't until 2001, when Nikka Yoichi 10 year Single Malt won the top prize in Whiskey Magazine, that American consumers began to take notice. Since then, demand for Japanese whisky has skyrocketed, and Japan's older distilleries have struggled to keep up with the huge demand.

Meanwhile, Japanese whisky's surge in popularity has inspired a new generation of distilleries in Japan, and while their products are still young, many show great promise.

WHISKY OR WHISKEY?

You may notice that sometimes our favorite drink is spelled with an "e", and sometimes it isn't. What's the difference?

The original spelling – whisky – comes from early Scotch producers, who called their product Uisge Beatha (Water of Life) in Gaelic. When translated to English, Uisge became "whisky". When the Irish began distilling as well, they wanted to set their product apart from the Scottish, adding an "e" and calling their product "whiskey". In the United States, the spelling could have gone either way, but it's thought that the large number of Irish immigrants tipped the scales toward "whiskey". In Japan, where their distilling tradition is linked closely to Scotland, "whisky" became the accepted term.

In this guide, we use the term whiskey with an "e" whenever we talk about whiskey in general and when we specifically mention American, Irish, or Canadian whiskey. We use "whisky" when referring specifically to Japanese or Scotch whisky.

WEDNESDAY'S LIMITED RELEASES: IRISH WHISKEY AND SCOTCH WHISKY

Scotland is the birthplace of whisky, and still produces some of the finest in the world. While most of the Scotch whisky produced is of the pedestrian blended grain variety, where Scotch shines is in single malts – 100% barley malt whiskies from a single distillery.

Irish whiskey was once the most popular spirit in the world, boasting 30 distilleries in the 1890s. By the 1990's, only three remained. However, drinkers around the world have rediscovered the flavors that made Irish whiskey so popular, and the category has experienced a resurgence, with new distilleries popping up every year. Meanwhile, the three distilleries that weathered the tough times of the 20th century continue draw upon their extensive stocks to produce distinctive expressions that have weathered the test of time.

THURSDAY'S LIMITED RELEASES: RYE NOT?

Bourbon's younger, spicier cousin, rye whiskey is a category that has experienced tremendous growth in recent years. Bartenders love it for the way that rye whiskey can hold its own in a cocktail, while home consumers appreciate the interplay between fruitiness and spiciness that a good rye delivers.

In addition to the limited offerings, be sure to check out the featured product as well. We'll have some great rye whiskeys to stock up on at great prices, like the Minor Case Sherry Finished Rye and the new WhistlePig PiggyBack Rye.

BOURBON AND RYE, WHAT'S THE DIFFERENCE?

Both bourbon and rye have very similar requirements for production. They both must be distilled to no more than 160 proof, enter the barrel at no more than 125 proof, and be aged in new, charred oak barrels. Both rye and bourbon also must be aged for at least 2 years in barrel before they can be called "straight."

The difference between the two is the mashbill. While bourbon must be made from a mashbill at least 51% corn, rye whiskey must contain at least 51% rye. Bourbon also has the additional requirement that it must be produced in the United States.

In the glass, most rye shows a spicier and fruitier flavor than bourbon while bourbon shows more sweetness and a fuller body.

While many Canadian whiskeys are colloquially referred to as "ryes", most do not contain the requisite 51% rye in their mashbill and therefore can't be labeled as rye whiskey in the United States – but may bear that designation in Canada.

ANGEL'S ENVY RYE

Rye Whiskey Finished in Rum Casks

Angel's Envy Rye spends up to 18 months finishing in Caribbean rum casks, resulting in an immensely complex whiskey. The mingling of raw, spicy and earthy rye with the mellow sweetness of rum finishing creates an incomparably smooth and drinkable whiskey, even at 100 proof.

Finished American Whiskey

Dovetail is blended to highlight some of Barrell's favorite flavors, blending whiskey finished in Cabernet Sauvignon, Toasted French Oak, Late Bottled Vintage Port, and Molasses Casks. This combination could be a muddled mess, but Barrell's blenders manage to transform it into a perfect, harmonious whiskey. Bottled at cask strength.

BLOOD OATH PACT #4

It turned out that one of our local distributors found an orphaned 3 pack of Blood Oath Pact #4 – the 2018 release of Luxco's annual Blood Oath project. We generously offered to take it off their hands.

The Pact #4 is a blend of 9, 10, and 12-year bourbons that create a finished blend that is more than the sum of its parts.

And three, a 7-year, full of roasted caramel and honeyed raisin. The three are blended then rested and mellowed in Cognac casks for a finish that is all Kentucky heat with a wisp of crème brûlée sweet.

This bottling takes their four-year-old Rocky Mountain Single Malt and then transfers it to 500-liter Oloroso Sherry Barrels to cask finish. Procured from the Andalusia region of southern Spain, these sherry barrels have been aging wine for over 40 years, leaving a depth of flavor soaked into the ancient oak staves. The flagship of American sherried single-malts.

FRIDAY'S LIMITED RELEASES: WHISKEY PIONEERS

While a lot of exciting whiskey will be released during our Week of Whiskey, it's on Saturday that we bring out the tried and true. These heavy-hitters of the bourbon world include Bakers, Stagg Jr. and Elijah Craig. Along with the limited releases, Week of Whiskey attendees can expect to find great savings on some of their favorite bourbons.

BAKER'S 7 YEAR SINGLE BARREL Kentucky Straight Bourbon Whiskey

Baker's has undergone a lot of change in the past year, with new packaging and a transition from small batch to single barrel. Each bottle remains at least 7-years-old, and Baker's also retains its 107 proof. We are excited to explore the variation that the single-barrel expression will bring to the brand.

BAKER'S 13 YEAR SINGLE BARREL Kentucky Straight Bourbon Whiskey

BASIL HAYDEN'S 10 YEAR Kentucky Straight Bourbon Whiskey

This new limited release of Basil Hayden's is the brand's oldest expression to date. We should see this limited 10-year release once a year. Like the regular NAS Basil Hayden's, this bottling uses a high-rye mashbill, and the extended aging balances the spicy rye with lots of sweet caramel and vanilla. At 80-proof, this edition is a great introduction for those beginning their whiskey journey but has enough flavor to please bourbon connoisseurs as well.

BUFFALO TRACE BOURBON CREAM **Cream Liqueur**

ELIJAH CRAIG BARREL PROOF **Kentucky Straight Bourbon Whiskey**

For many bourbon fans, the Elijah Craig barrel proof is the perfect combination of proof, age, price and flavor. Delivering more drinking enjoyment for buck than bourbons twice its price, it's no wonder that this bottling usually sells out immediately after hitting the shelves, despite it not being a tater must-have.

E.H. TAYLOR SINGLE BARREL **BOTTLED IN BOND** **Kentucky Straight Bourbon Whiskey**

Single barrel bottled in bond bourbons are not easy to find, and E.H. Taylor's offering is arguably the best of them. Many of the barrels selected for the E.H. Taylor Single Barrel are aged in Warehouse C, which was built by Taylor in 1881 and which continues to yield some of Buffalo Trace's best barrels.
